Survey for member associations on women's football

Dear Sir/Madam,

Following the success of the FIFA Women’s World Cup Germany™ in 2011, FIFA introduced women’s football development guidelines and programmes for 2012-2015. Our main objective for this period is to improve female players’ pathways worldwide.

In the past two years, we have seen a very positive increase in the participation of our members in women’s football development programmes, with over 110 member associations benefiting overall.

Programmes for the development of women’s football leagues, girls’ festivals and specific initiatives for increasing the participation of girls in the under-12 age group, as well as coaching training courses, have been the most popular programmes so far.

We can look back with satisfaction at the number of girls participating in our girls’ festivals and “Live Your Goals” initiatives, with an overall total of 16,700 girls participating in the 110 festivals organised in 2012 and 2013.

We would like to enhance the impact of our programmes and women’s football has been identified as one of FIFA’s priorities for the next cycle together with grassroots (6-12-year-old boys and girls), as well as youth development. As such, FIFA will seek opportunities to work closely with the member associations to strengthen these key strategic development areas.

To achieve this we need to know more about the growth of women’s football in each member association, in order to evaluate the support required in the future.

We have prepared an online survey, which will give us the feedback and information we need in order to adapt our programmes accordingly for the next cycle.

The survey will look at and evaluate the following areas:

- Overall development and growth of women’s football
- Integration and governance
- Female participation in football
- Investment in women’s football worldwide
- Awareness and media coverage
- Perception of women’s football
- Challenges, needs and priorities from the member associations

Your accurate answers will be crucial for achieving our objectives, and therefore we ask you to use the enclosed version of the survey as a guide in order to gather the information you need before completing the survey online.

The link to complete the survey has been sent to your association’s e-mail address. Please note that you are only allowed to login to the survey ONCE, and in the survey, when you click submit to go to the next page, you will not be able to go back and change your previous answers.
