FIFA safety & security questionnaires

Dear General Secretaries,

In order to improve the support that FIFA can offer to member associations in the critical field of safety and security, FIFA's Safety & Security Subdivision is looking to gain a better understanding of the local picture in terms of safety and security across its member associations, and the regional confederations. To help us ensure our efforts are as effective as possible, you will find a link to the questionnaire, designed to establish the current capacity for and approach to safety and security in each member association, in the email relating to this letter.

It is only by working together that we can raise the bar of safety and security standards across the board to ensure that everyone who enters a football stadium is safe. To this end, the relationship and cooperation between FIFA, the confederations, and the FIFA member associations are critical. We are also sending a similar questionnaire to each regional confederation to gain an understanding of the safety and security capacity in each confederation and how this ties in with the relevant member associations and other organisations. A copy of this questionnaire is attached for your information.

We would be grateful for your leadership in ensuring the member association questionnaire is **completed by 15 May at the latest**.

We thank you for your essential cooperation in helping to make football safe and secure worldwide.

Yours faithfully,

FÉDÉRATION INTERNATIONALE DE
FOOTBALL ASSOCIATION

Zvonimir Boban
Deputy Secretary General (Football)
