WHY A FIFA FOOTBALL LAW ANNUAL REVIEW?

One of the fundamental pillars of FIFA 2.0 is the transparency of the organisation, its governance and the decision-making process.

In recent years, the development of **regulations and legal decisions** in various fields of FIFA's activity have become **very relevant** issues for professionals in national associations, leagues, clubs and players' unions as well as for coaches. At times, this has filtered down into footballing society in general.

With this undeniable reality in mind, **FIFA has set itself the objective of ensuring** that football's legal stakeholders can get to know the **most relevant aspects of the field first hand**.

Therefore, **FIFA is opening its doors to present, on an annual basis, the regulatory work, case law and the main decisions of its decision-making and independent bodies, as well as the main CAS procedures** that derived from FIFA's decisions.

2018 was a year of important regulatory changes for the organisation and **relevant decisions** by the independent bodies. **It is time to share and present this information to everyone!**
