### **FIFA Compliance Handbook**

Dear Sir or Madam,

First and foremost, thank you very much for participating in the 3<sup>rd</sup> FIFA Compliance Summit and in the dedicated workshops. We had some very inspiring and fruitful days, and important thoughts were shared amongst our member associations.

As already announced during the general session, the **FIFA Compliance Handbook** is now available. It was officially launched during the 3<sup>rd</sup> FIFA Compliance Summit and it can be accessed [here](#). You will also find it at [fifa.com/who-we-are/legal/compliance/](https://www.fifa.com/who-we-are/legal/compliance/).

The FIFA Compliance Handbook is a practical, interactive and easy-to-use PDF document that provides member associations and other sports stakeholders with the basic principles and benefits of implementing compliance guidelines. Stakeholders will be able to develop their individual compliance programme by extracting the parts they need from the handbook, depending on where they are on their compliance journey.

In the spirit of sharing knowledge and best practices, all FIFA Compliance resources are at your disposal to help you achieve your governance goals. In the next coming weeks, we will also distribute the post-summit report, which contains all of the presentations from the working sessions.

We hope you find the new Compliance Handbook useful.

Yours faithfully,

FIFA
